# STUDENT COMPANIES

The entrepreneurial spirit is an integral part of the curriculum of a Grande Ecole. It makes it possible to build a network, to share group projects, but also to develop an entrepreneurial spirit through real work environment conditions.

The Student Companies are more than just associations. They structure the pedagogy of « Action Learning » at ISC Paris.

Like true entrepreneurs, you manage teams, manage budgets, develop objectives, take responsibility and pass on your acquired knowledge and skills. This has been one of the founding principles of ISC Paris since its establishment over 60 years ago.
